Planning for an Evacuation: Details

Take steps to prepare now, so you are ready to leave if there is an evacuation.

1. **Register for Alertable at NSEM.CA/ALERTABLE**
   During an emergency, authorities will provide clear and concise updates. Register now for Alertable, the North Shore’s free emergency notification system by going to nsem.ca/alertable or downloading the app.

2. **Make a Plan** (see Figure 1)
   - Write down phone numbers for family members including workplaces, school, daycare, and caregivers.
   - Organize your ‘out-of-area’ contact (a contact who lives in a different province or time zone) to help you reach loved ones if cell networks or the internet is down.
   - Decide on a pre-arranged meeting place.
   - Engage with neighbours who might need extra support such as young families, seniors with mobility issues, and individuals without a vehicle.

3. **Prepare a Grab-and-Go Bag** (see Figure 2)
   Have each member of your household prepare a grab-and-go bag with important items and emergency supplies. Customize each bag for each individual’s needs e.g., diapers, medications.

4. **Know your Neighbourhood and the Best Routes Out**
   Practice taking alternate routes in advance.

5. **Understand your Transportation Options. How will you Leave?**
   - Vehicle? Keep your fuel tank at least half full (or vehicle charged) in case you need to leave quickly. Offer empty seats to others to reduce traffic congestion on evacuation routes.
   - No vehicle? Make a plan with friends and neighbours. Explore alternatives such as buses.
   - Specific needs? If you anticipate needing help during an evacuation, engage existing service providers, family, friends, or neighbours as part of your plan. Build a trusted support network.

6. **Prepare to Care for your Pet**
   Your pet will be relying on you to help them during an emergency. Have a leash, food, and medications. Having a carrying case or crate will increase the chance of your pet being able to stay with you wherever you evacuate.

Make a Plan  Figure 1

Where will you meet? How will you communicate? Being prepared is the most important step you can take. Talk to your family or household now about what to do in the event of an evacuation. Important components of your emergency plan should include:

- **Household Meeting Place** Decide on a specific meeting spot in case you are separated from household members

- **Out-of-Area Emergency Contact** A contact, living in a different time zone, who may be able to receive your texts and can pass messages between family members.

<table>

During an Evacuation: Details

**Evacuation Alert:** means an evacuation is possible in the near future. **Evacuation Order:** you must leave when told to do so. Evacuation orders are only issued when there is a serious risk to lives and property. **If you have received an evacuation order, take the following steps:**

1. **Receive Instructions from Emergency Officials**
   During an emergency, authorities will provide clear direction on where to go, when, and why. Receive instructions through the Alertable app, local official websites, social media, or radio.

2. **Follow your Personal Evacuation Plan**
   Implement your emergency plan utilizing the phone numbers, pre-arranged meeting locations, and out-of-area contact information contained in your emergency plan document (see Figure 1).

3. **Get your Grab-and-Go Bag**
   Be ready to go with this mini emergency kit; one for each household member (see Figure 2).

4. **Evacuate using any transportation available to you**
   Vehicle, bus, or your pre-arranged support network. Offer empty vehicle seats to people needing transportation.

5. **Check in at a Reception Centre (when established)**
   Emergency officials may identify safe locations to go in your municipality or area. These are usually community buildings such as libraries or community centres. Proceed as directed and check in.

6. **Monitor Ongoing Updates**
   Monitor ongoing updates from emergency officials using nsem.ca, local authority social media and websites, radio, and the Alertable app.

After an Evacuation:

When an evacuation order has been rescinded, instructions will be provided for the safe and orderly return of people to their homes.
